

Debit Card Use:

A Must Have Payment Option

Debit card use is skyrocketing as more customers are discovering their convenience and more merchants are discovering the potential savings over alternative payment methods.

Flexibility, security and convenience are crucial in payment processing, and debit cards are no exception. Give your customers the ability to use debit cards and you gain the benefit of a payment option that offers simplicity and a high level of security.

When a debit card is issued, the account holder must select his or her own **Personal Identification Number (PIN)** that must be used when the card is processed. Entering a PIN ensures that all of the Transactions you accept are highly secure. Signatures or ID are not required when accepting debit cards, as the PIN is the Identification. With direct access to all of the major debit networks, Credomatic makes it easy to accept debit and ATM cards regardless of your location.

By accepting ATM cards your business will save hundreds possibly thousands of dollars monthly. You pay no discount only a per transaction fee!
